

Business Intelligence Engineer (m/f/d)

Description

Company Description

Job Description

Looking for a challenging career opportunity? Then look no further: We're working with the market-leading Cloud data warehouse, Redshift and Redshift Serverless. You want to work with top [ETL](#) tools like Matillion and leading BI reporting tools like Power BI and Quicksight? Then don't miss out on this chance and apply today!

DO WHAT YOU LOVE:

- You collaborate closely with Product Owners and Analysts to gather detailed business requirements
- You take charge of data acquisition and the preparation of ELT/ETL pipelines in Matillion
- You design event schema and take ownership of data modelling
- You manage the entire data profiling process to ensure accuracy and completeness
- You build reports in Quicksight/Power BI to provide a strong foundation for data analysis, including branch KPIs

Qualifications

- You hold a university degree in IT or a related field and have several years of experience in Data Engineering
- You possess expert-level knowledge of AWS, Redshift, and Athena, as well as experience with ETL tools (preferably Matillion)
- You are skilled in BI workflows, reporting, understanding business needs, and communicating with stakeholders
- You are familiar with leading BI tools, including Power BI, Tableau, and Quicksight and are proficient in Python and SQL
- You bring a hands-on, pragmatic, and highly curious mindset

Additional Information

Working at SIXT not only means creating the future of mobility, but also offers personal benefits. This means especially for you: 30 days of vacation, support for pension plans & capital-forming benefits, mobility allowance of 20€/month and flexible working hours. You can decide where you want to work from: Up to 50% of your monthly working time you can work completely mobile and from anywhere, up to 30 days per year even in other European countries (EU, CH & UK).

In addition, you will of course receive employee benefits for SIXT rent, share, ride and SIXT+, car leasing offers, discounts with partners for travel, technology, clothing, etc. as well as free cyber sports courses and numerous trainings for your individual development.

It's also important to balance out your work: That's why you have access to our employee restaurant (and yes, we insist on restaurant, because it's too high quality for a canteen) as well as various recreational opportunities such as our modern SIXT Gym, the gaming area, or the SIXT choir – to name just a few. One day a year you can support the children's aid foundation "Drying Little Tears", an initiative of Regine Sixt, & do something good.

In addition, your colleagues are pretty awesome. Which is important when you spend so much time together, and besides, no wonder when you get a bonus for referring friends as new employees. If something does bother you, you'll always have someone to confide in through regular feedback sessions, employee surveys or our psychological hotline through the Fürstenberg Institute. Otherwise, we live "work hard, play hard" – our parties are legendary! We also demand and promote DiverSIXTy, a corporate culture of acceptance, appreciation, and respect, in which everyone can develop their personality and ideas.

About the department:

Engineers take note: cutting edge technology is waiting for you! We don't buy, we primarily do it all ourselves: all core systems, whether in the area of car sharing, car rental, ride hailing and much more, are developed and operated by SIXT itself. Our technical scope ranges from cloud and on-site operations through agile software development. We rely on state-of-the-art frameworks and architectures and strive for a long-term technical approach. Exciting? Then apply now!

About us:

We are a leading global mobility service provider with sales of €3.07 billion and around 9,000 employees worldwide. Our mobility platform ONE combines our products SIXT rent (car rental), SIXT share (car sharing), SIXT ride (cab, driver and chauffeur services), SIXT+ (car subscription) and gives our customers access to our fleet of 222,000 vehicles, the services of 1,500 cooperation partners and around 1.5 million drivers worldwide. Together with our franchise partners, we are present in more than 110 countries at 2,098 rental stations. At SIXT, a first-class customer experience and outstanding customer service are our top priorities. We focus on true entrepreneurship and long-term stability and align our corporate strategy with foresight. Want to take off with us and revolutionize the world of mobility? Apply now!

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
