

Alpha Data Operations Analyst, Associate 1

Description

Who we are looking for

The State Street's AlphaSM Data team is seeking versatile Data Operations Analyst with data analysis skills to help us build and sustain our client's data capabilities and competitive advantage using the Alpha services and product offerings. The successful candidate will have opportunity to obtain skills in data operations, improve communication and technical abilities. This is entry level role in Alpha Data Operations that supports clients globally and is working closely with our colleagues in Boston, Hangzhou and Bangalore.

Why this role is important to us

The team you will be joining plays an important role in the overall success of the organization. Across the globe, institutional investors rely on us to help them manage risk, respond to challenges, and drive performance and profitability. To make that happen we need teams like yours to help navigate employees and the organization as a whole. In your role you will strive for cutting-edge solutions, that are straightforward and scalable. You will help us build resilience and execute day to day deliverables at our best.

Join us if making your mark in the financial services industry from day one is a challenge you are up for.
