- Transform and structure data using Amadea and Power BI datasets.
- Analyze data and make it available to different stakeholders:
 - Provide insights to management (e.g., market shares, NPS evolution) using Power BI.
 - Support sales teams with reports on commercial actions and KPIs via Power BI.
 - Make data files available to brokers through the Salesforce portal.
 - Share data with third parties through automated FTP and SharePoint uploads.
 - Utilize Excel tools for simulation purposes (e.g., custom mixes, periodic savings).
- Participate in projects to develop NPS measures throughout the customer journey.

Required Skills and Experience:

- Advanced proficiency in Amadea (recent experience: 1-3 years).
- Advanced proficiency in Excel, including VBA (recent experience: 1-3 years).
- Intermediate proficiency in Power BI (recent experience: this year).
- Beginner proficiency in Salesforce (experience at any time).

Language Requirements:

- Proficiency in two of the following languages: French, Dutch, English.
 - French or Dutch: Native or bilingual proficiency.
 - English: Professional working proficiency.

Consultancy Advantages:

- **Consultancy Model:** As a consultant, you will work on client projects, offering a dynamic and varied work environment.
- **Diverse Projects:** Engage in a wide range of projects across different industries, enhancing your professional growth and experience.
- **Continuous Learning:** Benefit from Keystone Solutions commitment to professional development, with opportunities for ongoing training and skill enhancement.
- **Career Advancement:** Our consultancy framework supports your career ambitions, providing pathways for progression within Keystone Solutions.
