

Senior Data Analyst – Internal Audit

Description

Aker BP aims to be the exploration and production company of the future by transforming the way we work and operate. We are setting new standards by focusing on safe production and low emissions in the oil and gas industry.

We have big plans– do you want to join us?

Internal Audit is responsible for conducting 3rd line of Assurance activities in the company. Internal Audit is an independent body that reports to the Board of Director's Audit and Risk Committee and to the CEO and EMT. Internal Audit is a small team of experienced professionals who are working as auditors in an integrated team. The position reports to VP of Internal Audit and Compliance.

Internal Audit has an ambitious digital agenda, and digitalization and data analysis are key for a modern and a forward-looking audit function. The digitalization of the function will hold both new ways of working, enhance the competency of using new tools, how to use AI in audit and to build effective analytic models to perform analysis of data for audit execution.

Typical work tasks can be:

- Build solutions for internal audit execution in Microsoft Power Platform.
- Perform and/or facilitate data analysis from various data sources based on audit plan.
- Develop Copilot usage in different data environments.
- Build relevant analyses, benchmarks, or dashboards in cooperation with colleagues in the Digital function.
- Collaborate closely with data analytics and performance teams across Aker BP, with and our digital partners/suppliers.
- Contribute to digital insights activities with high strategic priority.
- Participate in planning of Audit programme and other key tasks in the audit team.

Skills and qualifications:

- MSc within Economics, Data or Engineering
- Minimum of 5 years' experience with data analytics and data-driven decision making
- Previous experience from a Business Intelligence / Data Engineer / Analyst role
- SQL skills, cloud solutions, insight into dimensional modelling and data architecture and experience with visualization tools like Power BI, Tableau or Qlik
- Advantage if you have worked with API's, data build tools and programming languages or Azure tools.
- Experience with risk assessment and risk analysis.

- Fluent abilities in English and Norwegian, both verbal and written
- Familiar to corporate systems and data structures

We think you will thrive in Aker BP if this resonates with you:

- Our SAFER values are the foundation for everything we do. Working with us means identifying with being Seekers, Accountable, Foreseeable, Engaged and Respectful.
- Cooperation is the very core of Aker BP. Working with us means wanting to be part of our ONETEAM-culture.
- At Aker BP, we put safety first. When working with us, we expect you to do the same.
- You have a passion for digitalization and new digital tools.
- You have an interest in how data can be made available, interpreted, visualized, and used as a basis for various recommendations and decisions.
- You have an eye for details and analysis.

Our commitment to you:

- We are convinced diversity is an important element for success, and everyone in Aker BP should feel involved, included, and respected.
- We want you to develop. That's why we are committed to providing you with varied experience and enhancing your expertise so you can build a CV for the future!
- We will offer you a competitive compensation package including a share savings program, and a solid pension scheme.
- We know that your health and a work-life balance are key factors for job satisfaction. That's why we have good cafeterias, work-out facilities, and flexibility – in working hours.
- If something should happen to you, we will make sure you get help from the company health service and our insurance programs.
- Our offices have a universal design – accessible for all.

Location(s): Oslo, Stavanger or Trondheim. Please specify your preferred location in your application.

Application deadline: 30.06.2024

Background checks will be performed, following consent from relevant candidates. We ask that you enclose your diploma/grade transcript with your application.
